Office Action Summary

The preliminary amendment of 11/2/01 amended the abstract and specification, canceled claims 1-17, and added new claims 18-60.

The application as filed contained claims 1-6 instead of 1-17. Therefore, claims 1-6 have been canceled and claims 18-60 have been
5 renumbered as claims 7-49.

Claims in the application are 7-49.

Restriction to one of the following inventions is required under 35
U.S.C. 121:

- I. Claims 7-36, drawn to a tablet and composition containing
10 lactase, classified in class 435, subclass 188.
- II. Claims 37-49, drawn to processes of making a tablet containing
lactase by forming a preblend of lactase and microcrystalline
cellulose and combining the preblend with other components,
classified in class 435, subclass 200.

15 The inventions are distinct, each from the other because:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be
20 made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product (tablet and composition) can be made by a materially different process. The tablet and composition can be made by combining components without forming a preblend of lactase and microcrystalline cellulose as required in the process.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5 Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance
10 with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
